Resting heart rate Demo, measured 20 Aug	**58 bpm**
Sleep Demo, measured 20 Aug	**424 min**
Steps Demo, measured 20 Aug	**9,412 steps**
VO2 max Demo, measured 12 Aug	**38.4 mL/kg/min**

Latest blood test

LDL cholesterol	**3.72 mmol/L**

Demo, measured 15 Aug. Printed 1.44 g/L, converted by 2.586, stored as 3.72 mmol/L

What this document is

A copy of what you recorded, with the source of every value beside it. It is not a medical document and it makes no clinical claim: where a reference interval is shown, it is the one your own laboratory printed on your own sheet.

Every value keeps the source it came from, and a correction never overwrites the reading it corrects. Where a day has no reading, this document says so rather than carrying the last one forward.
